

S-10A

We Are Passionate About Your Success!

ENGINEERED FOR YOU!

The All New Highlights include:

- New 10' (3m) Screed Head allowing for 200 sq. ft. (18.6m) per pass
- Operator positioned in center of machine for optimum operator sight line
- 20 ft. (6.1 meter) boom reach
- Customized OASIS Laser Control System
- Fully compatible with optional Somero® 3D Profiler System®
- Easily transported on a flatbed truck or tag behind trailer

****Machine Shown with Optional Features****

The ALL NEW S-10A has been engineered for productivity and convenience! It is compact in size at just 7,500 pounds, but highly productive. With a 20' telescopic boom and our patented, fully automated, self-leveling 10' screed head the S-10A allows customers to screed 200 square feet per pass. Due to its light weight, the S-10A can be transported on either a flatbed truck or tag behind trailer.

The S-10A has operator conveniences unmatched in the industry. The Somero Quick GradeSet System™ enables the operator to easily and accurately set grade in minutes. With only two steps, the operator easily accesses the centrally located operator platform for direct line of site to the pour while screeding and the OASIS Laser Control System from Somero allows the operator to fine tune and calibrate the machine without leaving the operator area.
